

PINE DISINFECTANT CLEANER

Description

PINE DISINFECTANT CLEANER is blended with pine oil, anti – bacterial agent and biodegradable surfactant. It is non-acidic sanitizer and disinfectant cleaner. It mixed readily with water to form a creamy emulsion.

APPLICATION AND USE

PINE DISINFECTANT CLEANER is a general purpose cleaner, deodorizer sanitizer and disinfectant. It is safe to use on tiles, vinyl, terrazzo, marble, ceramic and concrete flooring, also use as a sanitizer and disinfectant to kill bacterial in toilets. A similar double strength solution may be use for spraying walls and floors and general equipment. Due to its strong odour, **PINE DISINFECTANT CLEANER** is not recommended for use in areas where food is stored, prepared or served.

DIRECTION OF USES

PINE DISINFECTANT CLEANER should be diluted at the rate of 1 part to 30 parts of water; it should not be used undiluted. For general cleaning of medical rooms use a double strength solution of 1 to 15 parts of water.

SAFETY PRECAUTIONS

Keep containers tightly closed, away from children and away from sources of heat.

Wash splashes from the eye immediately.

Wash off any splashes on the skin immediately.

Wash hand after use.

Use in well ventilated areas.

Wash out containers thoroughly and dispose of safely.

Do not use in any areas where the tainting of food may odour.

TYPICAL PROPERTIES

Appearance	: Amber Liquid.
