

## TBK CLEANER

### DESCRIPTION

**TBK CLEANER** is designed for the hygienic cleaning of toilet bowl and urinals – decaling, removing bacteria and deodorising in the one application. It is also suitable for use on ceramics to remove stubborn stains and marks.

### APPLICATIONS & USAGE

1. **TBK CLEANER** should be applied to the stained surface by simple brushing with a brush. Leave for about 1-2 minutes for **TBK CLEANER** to work on the stains and then rinse off with water.
2. For very stubborn stains and soils, the process should be repeated.
3. For very mild stains or for daily maintenance, **TBK CLEANER** can be diluted at rate of 1-part product to 2-5 parts of water.
4. As the product is acidic, precaution has to be taken to ensure that proper protective apparatus is worn when handling the product. This includes rubber gloves, splash goggles and apron etc.

### SAFETY MEASURES

**TBK CLEANER** is a highly aggressive product. In the event of skin contact, flush immediately with running tap water. If irritation persists, seek medical attention at once.

### PHYSICAL DATA

<b>Appearance</b>	:	Reddish liquid
<b>Odour</b>	:	Pungent
<b>Specific Gravity @ 20°C</b>	:	1.10 typical
<b>pH Neat</b>	:	1.0 typical
<b>pH @ 5% in tap water</b>	:	2-3
<b>Boiling Point</b>	:	97°C
<b>Freezing point</b>	:	N/A
<b>Vapour pressure</b>	:	N/A
<b>Water solubility</b>	:	Totally soluble
